

Beautiful cedar home

Plenty of features
make this
rancher a special
place to come
home to

Begin with the cathedral ceiling over the living room, dining room & kitchen. Then consider the 5x50 covered front porch & 10x15 rear deck. And there's the full-feature master suite; mostly finished walk-out basement with plenty of storage space and an L-shaped family room with long walls of 25 and 26 feet; a 100-foot-long driveway; and a dog run out back. The treed lot provides shade and privacy. Seller offering \$4,000 toward closing/carpet/improvements.
